EXPERIENCE
Product Manager | Dockbay (Series A, container depot software, 45 people) | 2022 – Present
- Only PM; owns the gate-in / gate-out and container survey modules used at 26 depots
- Worked a week of shifts at a depot gate before redesigning the survey flow; photo-based damage capture cut surveyor time per container from 11 to 4 minutes
- Dropped a planned customer portal after 5 of 6 interviewed shipping lines said they only want daily EDI files; shipped EDI instead in 5 weeks
- After a release broke gate-out printing at two depots, rolled back within an hour, wrote the incident note, and added a depot pilot step to every release

Operations Trainee | Seaways Container Freight Station | 2020 – 2022
- Ran daily yard inventory reconciliation; built a shared sheet for pending destuffing jobs that the whole shift adopted

EDUCATION
B.E. Civil Engineering | Anna University | 2016 – 2020
